

Number	Applicant	Title	Presentation
1	Ali Aliakbarlu	Designing an artificial neural network model to determine the type and optimal initial dose of gonadotropin during the ovulation stimulation process	Oral
2	Bahareh Arbabi	Comparing the Effect of platelet-rich plasma (PRP) and estrogen with estrogen alone on vulvo vaginal atrophy (VVA) and Stress urinary incontinence SUI	Oral
3	Sedigheh Ayati	Outpatient cervical ripening with misoprostol to prevent post-term pregnancy: a double blind randomized clinical trial	Oral
4	Samira Azimi	The effect of embryo transfer using abdominal and vaginal ultrasound methods on pregnancy outcome: a retrospective cohort study	Oral
5	Samaneh Esmaeili	Correlation Between Discordance of Anti-Mullerian Hormone and Antral Follicle Count and Outcomes of Ovarian Stimulation Cycles	Oral
6	Hatav Ghasemi Tehrani	Comparison of three methods of stimulation in poor ovarian responder's women that undergo Assisted	Oral

		Reproductive Technology (ART), a randomized clinical trial.	
7	Hatav Ghasemi Tehrani	A Comparative Study of IVF Outcomes in Three Pre-treatment Methods (Dienogest, OCP, Decapeptyl) Following Frozen Embryo Transfer in Patients with Stage 3 and 4 Endometriosis	Oral
8	Nazanin Hajizadeh	Severe early ovarian hyperstimulation syndrome following GnRH agonist trigger and freeze-all strategy in GnRH antagonist protocol; case report and literature review	Oral
9	Maryam Hashemi	An Investigation of the Effect of Myomectomy on Anti-Mullerian Hormone Level in Women with Uterine Leiomyoma	Oral
10	Vajie Hazari	Bioinformatics analysis of microarray data to identify hub genes, as diagnostic biomarker of HELLP syndrome: System biology approach	Oral
11	Sahar Hosseini	The effect of different types of sperm morphological abnormalities on ICSI outcomes in couples undergoing ART cycles	Oral

12	Sedigheh Hosseinimousa	Evaluation of Fertility Outcomes after Laparoscopic Salpingectomy for Tubal Ectopic Pregnancy	Oral
13	Sedigheh Javaheri koupaei	The Evaluation of the Effects of Metformin plus Insulin Therapy versus Insulin Therapy Alone In Prevention of Pre-Eclampsia among Pregnant Females with Gestational Diabetes Mellitus	Oral
14	Sima Kamkari	Survival rates in endometrial cancer patients and prognostic factors affecting it	Oral
15	Mania Kaveh	Superior hypo gastric plexus block as an effective treatment method for endometriosis-related chronic pelvic pain: an open-label pilot clinical trial	Oral
16	Somayeh Khanjani	Spontaneous rupture of uterine during pregnancy after laparoscopic myomectomy; a case report	Oral
17	Marzieh Mehrafza	Assessment of the live birth rate after intrauterine insemination in women with low or very low levels of serum anti-Müllerian hormone	Oral

18	Hanieh Najafiarab	Validity and Reliability of the Persian Version of Uterine Fibroid Symptom and Health-related Quality of Life Questionnaire	Oral
19	Nazli Navali	Cesarean Scar Pregnancy: A Rare and Challenging Clinical Entity	Oral
20	Leila Pourali	Correlation of obstructive defecatory symptoms with pelvic organ prolapse and anorectal manometry	Oral
21	Zanbagh Pirastehfar	Evaluation of anal cytology and human papillomavirus infection in high- risk women: a cross-sectional study	Oral
22	Athar Rasekh Jahromi	Comparison of chlamydia infection rates in women with miscarriage or infertility compared to the control group using Real Time PCR	Oral
23	Mohammadreza Sadeghi Bidmeshki	Using machine learning algorithms to predict live birth before the in vitro fertilization process	Oral
24	Roza Shahhosseini	The early versus standard administration of cabergoline to prevent ovarian hyperstimulation syndrome (OHSS) in patients with polycystic ovary syndrome (PCOS) undergoing ICSI cycles.	Oral

25	Meherdad Sheikhvatan	The value of miR-429 expression in predicting the prognosis of triple-negative breast cancer	Oral
26	Hadi Tabesh	Investigating the effect of injectable temperature-sensitive hydrogel containing micelles loaded with clotrimazole and silver nanoparticles: towards an effective treatment of vaginal candidiasis	Oral
27	Atiyeh Vatanchi	Comparing the efficacy of oral, sublingual and buccal misoprostol for induction of labor in pregnant women with premature rupture of membrane	Oral
